

Over the past 10 months the Diaz family has received some financial assistance from the Belize Project; They have put some of that assistance aside, rather than use it all for their own benefit. They advised me today they will put together 200 turkey Christmas meals for people who will not otherwise have a Christmas dinner.

For those of you who have been to Belize you know of some of the poverty that exists in Dangriga and the outlying areas. Now of course it is worse because of all the job losses caused by the covid.

I am confident these plates of Christmas Cheer will be very much appreciated.

It is amazing how this "pay it forward" works, all over the world. This is a theme we have promoted with everyone who has received assistance.

Thank you to everyone for your generosity.

Blessings for the holiday season.

Andy and Maureen
